Technical Projects

Glitterdoom | E-Commerce Site

<https://github.com/dshatto9/glitterdoom> <https://glitterdoom.vercel.app/>

- Developed a frontend with React, TypeScript, Tailwind and handled payments with Stripe.
- Drove traffic and sales up by 30% after integrating with Etsy.

Shiver | Horror Streaming Service

<https://github.com/dshatto9/shiver> <https://shiver-rho.vercel.app/>

- Designed and developed my own take on a horror platform, utilizing React, Tailwind and REST API
- Prioritized a mobile first design ensuring a positive user experience on all platforms.

Netflix Clone

<https://github.com/dshatto9/netflix-clone> <https://stalwart-faun-50562d.netlify.app/>

- Developed a replica of Netflix utilizing React, CSS, and TMDB API.
- Implemented user authentication and stored user information in a Firebase database.
